AstroBounce

GENERATOR QUICK START

Champion 6500W • EZ Start dial • Model 201513

Before starting: blowers off, all cords unplugged.

Cold Start

1. Turn dial to **CHOKE**.
2. Pull cord slowly until firm, then pull briskly. Return handle gently.
3. Once smooth, turn dial to **RUN**.

Warm Restart

1. Try **RUN**. Pull cord.
2. If it won't start, **one pull on CHOKE**.
3. Turn back to **RUN**.

After either start: warm up a few minutes unplugged. Then connect and start **one blower at a time**.

To Stop

Everyone out. Blowers off. All cords unplugged. Turn dial to **STOP / OFF**.

Quick Safety

Briefed adults only. Outdoors only - exhaust can kill. At least 20 ft from buildings, doors, windows and vents. Exhaust away from people and blower intakes. Never use in a garage, tent or trailer.
Keep in our setup spot. Children and objects 5 ft away. Do not move, cover, refuel or service.
Keep dry. No rain or wet hands. Approved cords and loads only; no added appliances or building wiring.
Power stops? Everyone out. Call before restarting after a warning or unexpected stop.

Trouble starting? Stop and call us.

720 786 3155

Dizzy or sick near exhaust? Fresh air + 911.
Quick rental reference. Full Champion manual linked on the guide.
